

# Lumen 360™

**Model Number: LED-360**

**The unique Lumen 360™ is designed to surround a stream water effect to create optimal illumination from all sides.**

**Housing:** 20 gauge deep drawn stainless steel, gas filled and permanently sealed. Circuit board and lamp bases are totally encapsulated in a heat-dissipating epoxy compound to prevent moisture intrusion.

**Mounting:** Available with yoke and base mounting (YK), riser mounting (R), or bracket mounting (BR).

**Lens:** 3/16" thick, flat tempered glass.

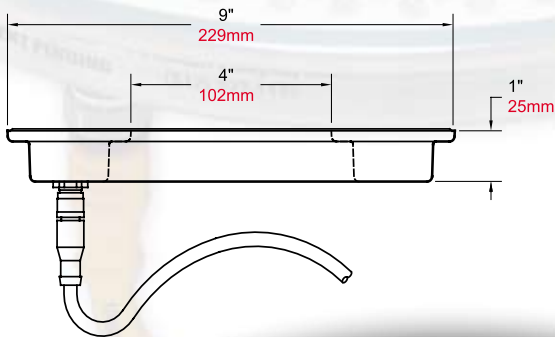

**Lamps:** (288) LED with 15° beam angle.

**Lamp Colors:** The lamp mix and distribution of red, green, and blue diodes is designed to maximize lumen output through over 16 million color variations.

**Color Capabilities:** Fades and multi-color strobe using CLED Series Controllers (See pg. 56).

**Power Connection:** Furnished with thirty feet of Type STOW submersible non-wicking cable with IP68 waterproof connector.

**Power:** 14 VDC.

**Lumen 360™**

Color	Lux <sup>1</sup> at Distance from Source				
	1m	2m	3m	4m	5m
All	1600	450	210	120	76
Red	510	150	68	38	26
Green	710	220	96	64	38
Blue	270	80	36	20	13

1. Lux = lumens/m<sup>2</sup>

Speaking the language of water.™
